Interest Rate Changes - 1st March 2025

Following the recent decrease in the Bank of England base rate, the Society will be decreasing interest rates paid to savers on 1st March 2025. The interest rates on variable rate savings accounts will decrease by 0.30%, and we will communicate this by personal notice as well as by website updates, branch notices and social media.

Please refer to the 'Future Savings Interest Rates - From 1st March 2025' page on our website, or pick up our "Savers Interest Rate" leaflet in branch after that date, or simply ask a member of staff for details of the interest rates paid on every account type.

The Society's standard variable rate (SVR) for mortgages will also decrease on 1st March 2025 by 0.15% to 7.84%. The actual rate paid by borrowers, which may include a discount from the SVR, will be sent by personal notice before that date.

Borrowers will continue to be supported by the Society and those who need financial support and / or who wish to review their current product interest rate should contact the Society for assistance.

If you require further information or have any concerns please contact us by email, telephone or by visiting www.esbs.co.uk/contact-us.
